Our K-Snap vinyl “K-Style” rainware, Classic Half-Round vinyl series, or U-Snap vinyl rainware system offers you a range of choices to complement and protect your home.

- Permanently welded joints insure that once assembled the gutters act as one piece.
- Heavy duty gutter support hangers are designed to with stand the weight of heavy ice and snow.
- K-Snap is now available in 6 designer colors.
- Precise engineering ensures easy assembly, and cementing the pieces together is faster and more secure than mechanical assemblies.
- Smooth joints and no sharp edges insure unhindered waterflow, making the rainware self-cleaning and easy to maintain.
- Streamlined look minimizes bumps and gaps between the elements.
